## OBJECTIVE

The 2<sup>nd</sup> Edition of the GUIDE TO FIRE PROTECTION IN MALAYSIA which contains substantive updates and new information was launched in March 2006. The seminar aims to help both users and those using this Guidebook as an academic subject to better understand the contents and intent of the Uniform Building By-laws 1984 with respect to Fire Requirement.

Participants will get to learn first hand how to apply the information contained in the Guidebook in terms of fire engineering, system design and application onto a hypothetical building project led by Seminar Speakers who are active practitioners.

This Seminar will be particularly helpful to practicing Architects, Engineers, Contractors, Project Managers, Academics, Students, Insurance Risk Analysts, Fire Service Officers and Complex Managers.

## TARGET AUDIENCE

Architects, Consulting Engineers, Fire Officers, Town Planners, Building Owners, Building Maintenance Personnel, Developers, Contractors and all others involved in the fire safety industry.

## REGISTRATION FEES

Registration Fees for the seminar are as follows:
