

Associate Grade Requirements

Academic requirements:

Applicants should provide evidence that they have achieved a qualification (or a combination of qualifications) that meets the following criteria:

- In a fire-related subject area (to include fire engineering science and/or fire safety)
- At Level 4 or above
- Requiring at least 370 hours of learning time (at least 37 credits)

Examples of qualifications that meet the criteria include:

- IFE Level 4 Diploma in Fire Science and Fire Safety
- SFJ Level 4 Diploma in Fire Safety (Fire Inspectors)
- Relevant degree

A listing of approved qualifications by country can be found by referring to the [IFE Approved Qualifications Listing](#)

OR

Successful completion (including passing associated assessments) of an IFE Recognised Educational Programme for MIFireE

OR

Chartered Engineer or Incorporated Engineer interim registration through the IFE automatically confers Associate (AIFireE) membership

Other requirements:

Applicants who are not in a fire engineering role but who facilitate fire engineers or fire engineering and hold a Level 4 or higher qualification in their specialist area may apply for Associate grade. Please ensure that your application demonstrates your association to fire engineering

Please note that the originality of your application may be subject to further scrutiny via appropriate technology and CPD may be challenged.
